---

**T**his 11-minute video is one in a series of three produced by several of OSEP-funded technical assistance and dissemination (TA&D) Centers.<sup>1</sup> The purpose of the video series is to identify the many resources that are available to families, educators, and service providers to help them address the individual needs of students with the most significant and intensive needs during the pandemic and beyond. The videos speak directly to parents and recommend that parents share the videos with the team of educators and other professionals working with their child.

Video 1 focuses on supporting the **academic needs** of students with the most intensive needs and highlights multiple resources. Watch Video 1 at: <https://youtu.be/z4gBmYD7t-U>

For your ease of access to and sharing of the resources mentioned, CPIR is pleased to offer this handout that identifies the individual resources and provides links to them.

## **Supports that Families Can Share with Educators** | *From NCII, NCDB, and the TIES Center*

Literacy Strategies to Support Intensifying Interventions

The NCII reading lessons are organized around the 5 components of reading identified by the National Reading Panel. Video examples and tips illustrate how the sample lessons can be used during COVID-19 to provide additional practice opportunities for students.
