A Checklist for IEP Teams: Considering Blindness and Visual Impairment

This checklist is drawn from the Nebraska Department of Education’s *Nebraska IEP Technical Assistance Guide* (1998, September). That document is no longer available online, but an updated version is. We’ve provided the updated checklist below. **How Do We Do It?**

   - [ ] Student’s vision is so limited a functional vision evaluation would not be appropriate

2. Has the student received a learning media assessment?
   - [ ] Yes  [ ] No

3. Has the student received a recent clinical low-vision assessment?
   - [ ] Yes  [ ] No
   - [ ] Student’s vision is so limited low vision clinical examination is not appropriate

4. Does the student’s visual condition indicate:
   - [ ] A progressive loss of vision?
   - [ ] Stability at the current level?
   - [ ] Unpredictability that will be followed by a possible decrease in vision?
   - [ ] A temporary condition that is expected to improve?

How Do We Know We Are Doing It Right?

The IEP:
   ❑ Provides information regarding the student’s visual condition.
   ❑ Addresses the student’s Braille/tactile needs.
   ❑ Addresses the student’s vision needs.
   ❑ Describes the student’s reading and writing medium.
   ❑ Addresses assistive technology and accommodations.
