

Activity Sheet 14

Reflecting on Part C's Procedural Safeguards

Instructions: You've just been introduced to several of the most important procedural safeguards in early intervention. Take a moment to reflect on their value in early intervention and their meaning to you personally or professionally. Work individually. In a few minutes, we'll discuss your perspectives in the large group.

1. List at least 3 procedural safeguards provided by the Part C regulations. (No peeking at your notes or handouts!)
2. In one or two sentences, what value or significance do Part C's procedural safeguards bring to early intervention systems and the individuals involved in early intervention?
3. You heard about several important procedural safeguards in Part C. To you, which seems the most important? Why?
4. How are procedural safeguards relevant to you personally or professionally? Name at least 1 way you can see using this information after today.
